## Exercise worksheet 3: Basic Cross Sections

Example: Work through this example with the presentation for exercise 3.

## Example: Use this graph paper to draw your cross section for the example.

|  | p | . U |  | ap | pap |  | dra | , | C |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

|  |  |  |  | - |  | $\square$ |  | + | + | + | + | + | + | I | U | - |  | + | I | H | + | + | - | + | T |  |  |  |

Problem: Work through this problem by yourself then review the presentation for the answers.

## Questions

Geological outcrops are shown in the NW corner of the map. - Complete the geological outcrops over the whole map.

- Draw a vertical columns showing each of the beds in stratigraphic order and to scale (use a scale of $1 \mathrm{~cm}=100 \mathrm{~m}$ ). Indicate the actual thickness of each bed.
- Draw a section along the line A-B.

Problem: Use this graph paper to draw your stratigraphic column for the problem.

Problem: Use this graph paper to draw your cross section for the problem.
